What is zyxel default password

Info updated March 22, 2022 The majority of ZyXEL routers have a default username of admin, a default password of 1234, and the default IP address of 192.168.1.1. These ZyXEL credentials are needed when doing a login to the ZyXEL router's web interface to change any settings. Since some of the models don't follow the standards, you can see those in the table below. Below the table are also instructions on what to do incase you forget your ZyXEL router password, need to reset your ZyXEL router to its factory default password, or the password reset doesn't work. Tip: Press ctrl+f (or cmd+f on Mac) to quickly search for your model number. ZyXEL default Password List (Valid March 2022)

Instructions and common questions Forgot your ZyXEL router password? Have you changed the username and/or password of your ZyXEL router and forgotten what you changed it to? Don't worry: all ZyXEL routers come with a default factory set password that you can revert to by following the instructions below. Reset ZyXEL router to default password If you decide to revert your ZyXEL router to it's factory defaults, you should do the 30-30-30 reset as follows: When your ZyXEL router is powered on, press and hold the reset button for 30 seconds. While still holding the reset button pressed, unplug the power of the router and hold the reset button for another 30 seconds While still holding the reset button down, turn on the power to the unit again and hold for another 30 seconds. Your ZyXEL router should now be reset to its brand new factory settings. Check the table to see what those are (Most likely admin/1234). If the factory reset didn't work, check out the ZyXEL 30 30 30 factory reset guide . Important: Remember to change the default username and password to increase the security of your router after the factory reset, as the default passwords are available all over the web (like here). I still can't access my ZyXEL router with the default password Make sure that you have followed the reset instructions correctly as the ZyXEL routers should always rever to their factory default settings when reset. Otherwise, there is always the risk that your router is damaged and might need to be repaired or replaced. To get access to your ZyXEL NBG420N, you need the IP of your device, the username and password. You'll find such information in the Manual of your ZyXEL NBG420N router. But if you do not have the manual for your router or you do not want to read the whole manual to find the default login information then you can use the quick guide below. To get to the router login page it's necessary that you are connected to the router. The default network name (SSID) is ZyXEL . ZyXEL NBG420N Login Guide Open your web browser (e.g. Chrome, Firefox, Opera or any other browser) Type 192.168.1.1 (the default IP to access the admin interface) in the address bar of your internet browser to access the router's web-based user interface. You should see 2 text fields where you can enter a username and a password. The default username for your ZyXEL NBG420N is (blank).The default password is 1234. Enter the username & password, hit "Enter" and now you should see the control panel of your router. If above login credentials doesn't work with your ZyXEL NBG420N router then try this method Try different ID/password combinations that are widely used by ZyXEL that you'll find below. In this list are the most popular default username and password combinations used by ZyXEL. Sometimes the username and password doesn't work that we mentioned in the top of this guide. Then you can try these username/password combinations below to get access to your ZyXEL NBG420N wireless router. # Username Password 1admin1234z(blank)1234312344n/a12345adminadmin6(blank)admin7/user12348123412349admin(blank)10admin11(blank)(blank)12adminpassword13webadmin123414admintelus15admin16supervisorsupervisor17on bottom of routeron bottom of router18(blank)19adminPrinted on Router Label20adminlast 4 of routers mac address21chtchnvds122Printed on Routers LabelPrinted on Routers Label23admin "randomly generated" 24(blank)25adminabc12326adminrandomly generated27on sticker under the routeron sticker under the router28adminpldt1234567890 Default login IPs for my ZyXEL router You tried different router IPs but nothing worked? Did you try the following IPs? In the list below we listed all known router IPs for the manufacturer ZyXEL. Maybe this will work for you. # Default Router IP 1192.168.1.12192.168.1.23192.168.1.2544192.168.10.15192.168.10.16acquired via DHCP7192.168.1.1:8080810.0.0.138910.0.0.110192.168.1.1111192.168.200.112192.168.254.25413192.168.1.314192.168.1.51510.131.52.16216192.168.2.117192.168.80.118192.168.100119192.168.100.120192.168.212.121192.168.3.1 Manuals for ZyXEL NBG420N Manual Setup Router Staff March 05, 2020 (Last Updated: August 08, 2021) | Reading Time: 4 minutes Below is list of all the username and password combinations that we are aware of for ZyXEL routers. If you are unable to login to your router you may need to reset it. We have a How to Reset Your Router guide that may help in this case. If you know of a username or password for any ZyXEL routers, please let us know and we'll get it added to our site.
